## Fujitsu F400

### Multi Cassette Media/Currency Dispenser

High Performance Multi Cassette Bill Dispensing Unit  
F400 Cost-efficient, Powerful Multi Cassette Media/Currency Dispenser

#### Enhanced Features

- Advanced security features like dual locks and tamper indicators
- 7-notes per second dispense
- On-board and remote diagnostics tools for quickly diagnosing and resolving issues
- Configurable for 1-5 cassettes; field upgradeable
- Higher capacities for more application possibilities

#### Benefits

- Adjustable bill low sensor in each cassette permits deployer to set the level for their unique requirements
- Reject bill area in top cassette allows for maximum number of cassettes flexibility in limited amount of vertical space.
- Each cassette can reliably dispense mixed new and used and paper and polymer notes
- Self-monitoring sensors can communicate imminent problem allowing them to be replaced before a failure
- Target applications include mid-range ATMs, bill breakers, bill payment kiosks, teller assist units, gaming and media dispensers, etc.

F400 Bill Dispensing with cash cassette Unit

# F400 Solution Overview

## F400 Multi Cassette Media Dispenser

With over 30-years' experience in designing and building media dispensing devices of legendary quality, Fujitsu has expanded the family of products available to its OEM sales channel to meet the needs of a greater number of applications.

The Fujitsu F400 media dispenser is a robust product in a small package. Targeted to help you minimize product costs and your customer's cost of ownership, the F400 is fast, reliable, high-capacity and feature-rich in local and remote diagnostics. It is also expandable – start with one cassette and expand to five as your program grows.

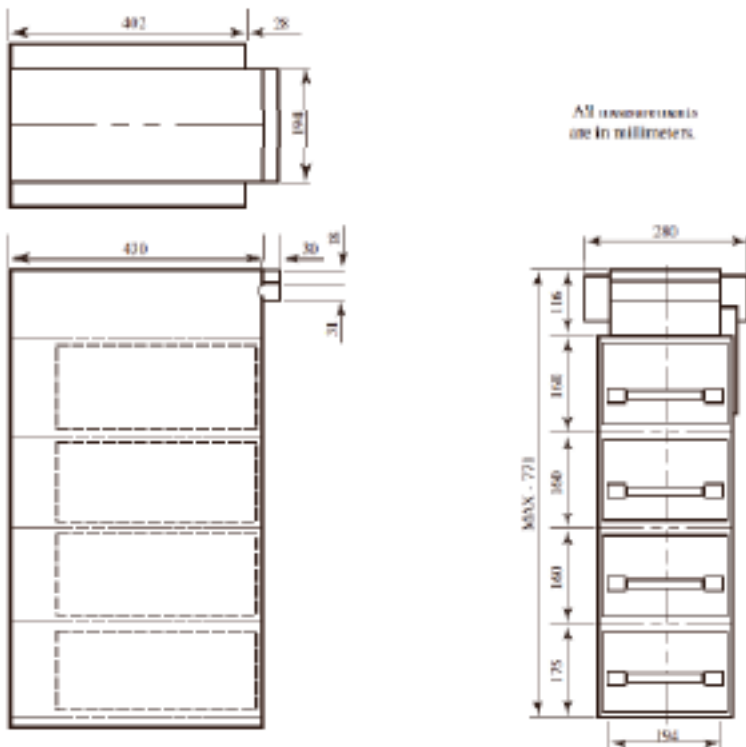

Security risks are reduced with the support of dual lockable cassettes and tamper indicators. The integrated reject area removes the need for a separate reject bin. Cassettes are adjustable for support of international and other media of value. The cassettes are configured for up to 14 uniquely identifiable media, and the unit is available with up to five large capacity cassettes requiring less visits and less replenishments.

Integration of the F400 is simplified with easily accessible mounting brackets and standard RS232 C communications interface. Best of all, the F400's overall flexibility and wide range of features will help you provide a wide variety of applications.

The F400 is slim enough and occupies a low profile, so it can "fit the ergonomic zone" and be easily integrated into most OEM applications while complying with height requirements for ADA.

Other high-end features on the F400 include a customer-adjustable bill low and denomination sensors to ensure that you have cash at peak times and dispensing the correct denomination to your customers. In addition, the sensors on the F400 can alert your customers or service organization when they need to be replaced before they fail and cost you down time.

So whether your applications include ATMs, self-checkout, kiosks, bill payment or bill changing, the F400 offers you cost-efficient bill dispensing with high-end features.

# F400 Product Specifications

Dimensions (W x D x H)	280mm x 430mm x 280mm
Weight w/o media	20kg cassette
Maximum Capacity per Cassette	2,200 new notes (approx.)* 230mm
Maximum Dispense	99 notes per transaction
Service Area	Front
Number of Cassettes	1-5 cassettes
Reject Area Capacity	100 notes
Acceptable Media Range	Max. (mm) 82mm x 172mm Min. (mm) 60mm x 120mm
Thickness (mm)	0.09 ~ 0.3
Processing Speed	7 notes per second
Interface Specifications	RS232C
Electrical Reuirements	DC +24V +/- 10% Avg. 4A Peak 10A
Temperature	Operation: 0°C - 40°C Stop State:-5°C - 50°C
Relative Humidity	Operation: 10% - 85% Stop State: 8% - 95%
RoHS Compliance	Yes
UL Compliance	Yes

Fujitsu Frontech North America reserves the right to change specifications without notice

\*Actual number of notes depends on fitness of currency, new versus used
